

HIV Drug Therapy

GLASGOW
2014

2–6 November 2014
Scottish Exhibition and
Conference Centre
Glasgow, UK

FIRST ANNOUNCEMENT

Joint Academic Sponsors

Invitation address

from
the
Chairpersons

Dear Colleagues

On behalf of the Organising and Scientific Committees, we are delighted to announce that the next **HIV Glasgow Drug Therapy** meeting will take place in Glasgow, UK between 2–6 November 2014.

Our aim is to provide a relevant, meaningful and topical Scientific Programme reflecting recent progress in the research and treatment affecting the management of HIV infection. Despite significant advances in treatment, challenges still remain. This Congress will provide practical advice and guidance to clinicians in the day-to-day treatment of their patients.

The programme is being developed to offer a mix of presentation-types and styles from keynote lectures to practical case-based presentations, within a single-session plenary format. Abstract submission is encouraged and abstracts will be considered for oral presentation in the plenary programme or oral poster discussion sessions, as well as printed posters. Time is set aside within the programme to encourage discussion and audience interaction. Networking during coffee and lunch breaks, and at the opening and poster receptions is actively encouraged.

In support of further networking and progressing research, the Congress will once again offer meeting space to non-governmental and governmental organisations. This allows key trial groups and other planning meetings to conveniently take advantage of the assembled audience and facilities.

Many of you will have attended and taken part in previous Glasgow congresses and we look forward to welcoming you again to Glasgow, along with new clinicians and researchers. With your continued support we very much hope that this Congress will continue to thrive and reflect the real progress being made in the treatment of HIV infection.

Programme topics

Treatment strategies (naïve, experienced, switch, simplification, late presenters, etc)

New treatments and targets

Adverse events (renal, cardiovascular, bone, metabolic, etc)

HIV-related infections, co-infections (opportunistic infections, hepatitis, tuberculosis), and cancers

Non-AIDS morbidities and mortality, and ageing

Laboratory monitoring

HIV management in resource-limited settings

Women, MTCT and children

Community initiatives

Resistance

Clinical pharmacology

Call for abstracts

Abstract submissions are invited for this Congress and will be published as a supplement to the *Journal of the International AIDS Society*. Submission will be electronic via an online submission system available on the Congress website www.hivglasgow.org. Abstract submission will open in January 2014 and the deadline for receipt of abstracts is **Friday 11 July 2014**. Individuals wishing to submit a late breaker will be able to do so providing a letter of intent is received by the secretariat by the regular abstract deadline of Friday 11 July. The letter of intent should include information about the proposed abstract and why it should be considered as a late breaker. The final abstract must be received by **Friday 15 August 2014** to be considered by the Congress. Abstracts undergo peer review and will be considered for oral, poster discussion or poster presentation at the Congress.

Abstract submission categories will be in line with the main programme themes of the congress. Full details including submission criteria, categories and deadlines will be available on the website: www.hivglasgow.org

Registration

Participation in the Congress is open to clinicians and researchers throughout the world interested in the exchange of information on drug therapy in HIV infection. Registration information is available via the Congress website www.hivglasgow.org. Registration will formally open in November 2013 and may be made up to and including Friday 24 October 2014. Only fully paid pre-registered delegates will be allowed to take part in the congress; on-site registration will not be possible.

Scholarship Programme

The congress is pleased to confirm that funds have been set aside to assist the attendance of junior researchers, those working in resource-limited settings, and those representing community organisations. Details of the qualifying requirements and review process will be available via the Congress website www.hivglasgow.org in December 2013. The deadline for resource limited and community scholarships is Friday 16 May 2014. The deadline for junior researchers is the regular abstract deadline of Friday 11 July 2014.
