

Updates as of July 2014

Denmark: There are no new updates from Denmark.

Finland: There are at the time two cases in Supreme Court, but the result of them is not yet finished.

Norway: There are no new updates from Norway.

Sweden: In late 2013 an official document was published in Sweden regarding minimal risk for transmission of HIV when no measurable virus load and stable therapy.

This as an effort on the information duty in the Disease Act Law and has already been used by Swedish court to reduce or withdrawn penalty by law.

Iceland: There are no new updates from Iceland.
